Grantees shall not materially deviate from the Approved Budget without first obtaining the prior written consent from TAJF. A material deviation will be deemed to have occurred in the event of the following: anticipated or actual expenses of Grant Funds that (1) are materially greater or less than that set forth in the Approved Budget, whether in total or by individual line item; (2) materially alter the ratio of Program to Administrative Costs; (3) involve a disposition of property acquired with Grant Funds; or (4) no budget line item has been approved by the Foundation.

A material deviation will occur if it meets either of the following tests:

A. The individual deviation is in excess of $1000 and the lesser of $10,000 or 10% of the Grant during the Grant Period.
B. The accumulated total of all budget deviations since the beginning of the Grant Period exceeds the lesser of $10,000 or 10% of the Grant for that Grant Period.

In the event of a material budget deviation, the Grantee shall request a revision of its approved budget via email to TAJF. The request must fully delineate the request the reasons for it, why it is necessary, and its effect on the Grantee. TAJF may request additional information.

Such request shall be sent to TAJF via email.
Direct costs (also known as "program costs") are those costs that can be identified specifically with a particular cost objective. These may be charged directly to cost objectives without further decision making. Examples include: salaries, wages and related fringe benefits; materials consumed or expended specifically for the purpose of the grant; equipment and other approved capital expenditures necessary to accomplish the purpose of the grant; travel expenses incurred specifically to carry out the award and services furnished specifically for the cost objective.

Indirect costs (typically "administrative costs") are costs incurred for common or joint purposes benefiting more than one cost objective. They cannot be readily directly assignable to the cost objective specifically benefited. In other words, those costs remaining after all direct costs have been identified. Examples of indirect costs are: costs of operating and maintaining facilities; general and administrative expenses, such as salaries and expenses of executive officers, accounting staff, occupancy, utilities, telephone, office supplies, incurred for the benefit of the project as a whole, as well as other activities of the grantee.
**DIRECTIONS:**

Review TAJF GGP Article VI Be sure you separate Program and Admin Costs

*To request a budget revision, contact TAJF with a brief narrative indicating your need for a budget revision. You will then be able to revise your budget in WebGrants*

**Column 1 - Approved Budget**
This column must be identical to the budget already approved by the Foundation. It must be presented in its entirety, not just the line items you are requesting to revise.

**Column 2 - Changes Requested**
This column must reflect increases and (decreases) in specific categories. The Total of this column MUST BE ZERO. Enter an increase as a positive number (i.e. 50), a decrease as a negative number (i.e. -50).

**Column 3 - Revised/Proposed Budget**
This is a line-by-line aggregation of Columns 1 and 2. This column will calculate automatically if column two is filled out properly.

**NOTE:** The Total of Column 1 MUST EQUAL the Total of Column 3.

**Narrative:** Fully explain the reasons for this Budget Revision request, its necessity and why appropriate. A narrative MUST be submitted via email before you can adjust your budget. Failure to provide the required information may result in a delay in consideration of your request or a denial of your proposed Revision.

**EXAMPLE:** (Please note: This example is for illustrative purposes only and does not imply such budget revisions will be approved by the Foundation.)
